To: All IMPORT Reefer clients of Seatrade // Streamlines
Subject: **Seatrade reefer damages / Survey report**

Willemstad, 23/08/2012

Dear Seatrade // Streamlines relation,

On behalf of our principal Streamlines N.V. we have to inform as follows:

It has been noticed that there is an increase of damages on the Seatrade reefers containers, in particular the doors. Attached you'll find a survey report which gives a clear view of the general occurring damages and their causes.

As a reefer container is a high-tech and expensive transport facility, it has been decided that as from now this type of damages will be monitored very closely. In case of damages, consignee will be held responsible.

We trust to have informed you well and in case of questions, please feel free to contact our liner department.

With best regards,

Dammers Seamanagement Services
